

Hi, from Saint-Petersburg! Let me introduce myself. My name is Alex. I am 19. I study at the local university. I am a psychology major.

Our family is very friendly. We love to spend time together as a family. We usually go on the picnics outside of our town and enjoy the nature's picture-perfect places.

This is my mom. Her name is Elena. She is beautiful, kind and a pediatrician who works in a hospital.

This is my father. He is handsome and smart. He is an engineer and builds good housing.

This is my brother. His name is Andre. He is 12 years old. He goes to school. Andre studies how to play tennis. He loves animals and music.

A fisherman's fortune was smiling at us today.

These are the beautiful places of Saint Petersburg Region, where our family goes fishing, and picking for berries and mushrooms.

This is not a photo montage. It is a real fish. Andrew caught it.

My brother liked fishing since he was a little kid.

It is not only nice and warm near the fire, but it is fun as well.

I like to play chess in my spare time.

Andre studies how to play tennis with the outmost seriousness. His training is every day for about 4 to 5 hours. He will be a champion some day.

Alex and Andre getting their mask made.

No matter when, what, where
If something happens,
However we are still one family,
Everything altogether united in us,
We will be together forever.

Alex Morozovi

This is an artistic process, the process of making masks. This moment is very important, because the clay needs to dry in the forms of our faces.

These are our masks. My grandmother Zoya did not make a mask but I love her very much.

Alex

The Morozovi's Family.

The Morozovis are the two brothers - Andre and Alex, their mother - Lena, their father - Ivan, the grandmother Zoya, and two parakeets (budgies).

Every person in this house is significant in his or her own way. There are no obvious leaders, favorites or forgotten here.

We loved working with Morozovis' family very much. From the first minutes, they lavished us with the great warmth and care. And we could see and feel that this family could only be seen as one whole. All of its members are tightly bound to one another with the enormous love to each other.

We are deeply thankful to our beloved Alevetina Kuzub, Mark Scheflen, and also to all organizers and participants of this project.

Thank you very much for the open doors and for the open souls and hearts!

Sveta Shekalova, Katya Tichonova.
